Rules

There will be a National Team score based on the results of all three competitions according to:

Relay: The highest placed team for each nation in each class will be counted and its position will be multiplied by 6.

Sprint & Long Distance: If a nation has only one or no runner in a class, the non-existent starts will be counted by taking the total number of starters in that class + 1.

The National Team with the lowest sum after the three competitions will win the National Team results and will be crowned Junior European Cup Team Champions 2026.
